Serial No. 10/005,771   Docket No. NG(MS)7266

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Previously Presented)   A method of billing usage over a network, said method comprising:

determining when a network interface is turned on at a client system;

determining when said network interface is turned off at the client system;

storing, at the client system, information relating to a time-based bill based on when the network interface is turned on and when the network interface is turned off; and

transmitting a call detail record from the client system to a billing module on a billing system based on the information relating to said time-based bill.

2. (Original)   The method of claim 1, further comprising obtaining desired information across said network while said network interface is on.

3. (Original)   The method of claim 2, wherein obtaining said information comprises encrypting said information, transmitting said encrypted information across said network, and decrypting said encrypted information.

4. (Original)   The method of claim 3, wherein said information relates to a video file.

5. (Original)   The method of claim 1, further comprising launching an application based on a menu selection.

6. (Original)   The method of claim 5, further comprising transmitting a connect packet from a client to a router device, said connect packet being based on said selected application.
